

Uncertain about the proceeding #. The residents of the state of Indiana have enjoyed the peace & quiet without the phone ringing since our state passed it's own 'Do Not Call' law. If the Financial institutions are successful, the floodgates will be opened and this quiet time will disappear, since we all do business (daily, weekly) with our local and regional banks. Tell the banks that if they want to do business in Indiana, they need to honor Indiana's 'Do Not Call' list law as well, no questions asked. Thank-you.
